FERTILIZERS.

TO BY THE ALE CHESCO BY BURS !

The undersigned, PIONEER in the manufacture of FERTILIZER; in this city, and ORIST-NATOR in 1958 of the formulas and processes of manufacture of

Excelsior & Ammoniated Phosphate

So well and favorably known by the agricultural public, relying upon his experience and resseral reputation hitherto acquired in the uniform excellence of these FARFILIZERS as
manufactured by him, continues to offer them to the farmers and planters
of Maryland and Virginia, with the assurance that the High Standard Quality of each will be main-tained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of bones

in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds or any other fertilizer or guass, therefore fully 50 per cent cheaper.

fully 50 per cent cheaper.

With my present advantages and superior facilities for manufacturing. I challenge competition with any fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated muterials and superintending in person their manufacture, as for the past twenty three years,

UNIFORM QUALITY IS QUARANTEED.

Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.
